Objectives of the Nursing Education Programming:

1. To prepare a professional and technically skilled nurse, competent to give a comprehensive nursing care to individuals, families and communities in sickness and health.
2. To prepare the student with guidance to take up leadership position in the teaching and the nursing practice in hospitals and community health agencies.
3. To provide the opportunities and experiences which would enable the student to develop and maintain effective interpersonal relationship with professional and nonprofessional personnel.
4. To provide the student with knowledge and learning experience which would enable her as a nurse to function with increasing ability as an effective citizen and a representative of her profession.
5. To provide those experience and opportunities would enable and motivate the nurse to enlarge her capacity for her own professional growth and to contribute towards the improvement and growth of nursing.
